

Cost-effective Telephone solution via UCA-NI Ltd

Why switch to Causeway Telecom?

- A simple transfer of current services could save money, improve customer services and speed up connectivity.
- A change to VoIP (Voice over Internet Protocol) will future proof your telephony whilst offering functional and flexible options for you and your customers.
- Once ordered a VoIP solution could be working on your premises within 3 weeks with absolutely no interruption to your ability to make and receive important calls.
- The installation is straightforward and again generally takes no more than 1 hour per site.
- Your call flow is dictated by you, to suit your business and then configured off site.
- A 30 minute, no obligation meeting would be more than enough to talk through the process and the benefits and answer any queries you might have.

Causeway Telecom are already providing great service to a number of pharmacies in Northern Ireland:

Cliff McElhinney, Urban Pharmacy: Brilliant service – the switch was simple and straightforward and my monthly bill is now reduced by 50%. Jonny is knowledgeable and approachable if you need help.

Edel McMahan, Randalstown Pharmacies: Fantastic service – Jonny is always available at the end of the phone and sorts out issues immediately leaving us to get on with the job. Great personal service and good prices too.
