

Introducing the NEW Paypod™ Pay Station

Focus on customers, not cash, with automation, security, and safety.

Paypod Pay Station is your new cash assistant bringing automation and security right to the point of sale. Taking the place of your cash drawer and integrating with your dispensary's point-of-sale terminal, Paypod accepts cash payments and makes change while cashiers focus on serving customers.

Manage cash in your dispensary better

Paypod is the tool you've been waiting for to help you properly manage cash in your dispensary environment. It lets you:

- Automate cash handling, so you focus attention on your customers, not counting money
- Process money coming in and going out using a secure mechanical device, reducing errors, counterfeits, and count differences
- Maintain social distance by removing hand-to-hand cash transfers

Meet Paypod and discover how much faster, easier, and more securely you can handle cash in your dispensary.
